"Emancipate yourselves from mental slavery, none but ourselves can free our minds!"
"If you have no confidence in self, you are twice defeated in the race of life."

African Fundamentalism
by Marcus Garvey
The time has come for the Blackman to forget and cast behind him his hero worship and adoration of other races, and to start out immediately to create and emulate heroes of his own. We must canonize our own martyrs and elevate to positions of fame and honor Black men and women who have made their distinct contributions to our racial history.

Africa’s Bright Future On China Belt Road Initiative

A Critique from UNIA Kenya

An Introduction

This Newsletter is a product of the UNIA ACL’s Africa Team — working in conjunction with the Universal Negro Improvement Association African Communities League — PostColonial Cultural & Economic Conference — PCEC 2020 & 2022.
This information stems from 100 years of hard core Garveyism. The advice offered herewith is pure Negro Improvement thinking developed from the study of The Declaration of Rights of the Negro Peoples of the World, drafted and adopted at the Convention of the Universal Negro Improvement Association held in New York City's Madison Square Garden on **August 13, 1920**, from the UNIA ACL Constitution, African Fundamentalism, and such like. Very few of our youth can appreciate the history of UNIA ACL and its international posture. (Youth in Africa constituted 19% of the global youth population in 2015, numbering **226 million**. Everything we do is for them and those yet unborn.)

See “A Critique from UNIA Kenya Africa’s Bright Future On China Belt Road Initiative.” Read the UNIA ACL’s Ambassador to Kenya speaking on Africa’s cultural and economic development. Note, he did not say we require the Internet, nor a white-controlled communication system, nor Facebook or Twitter to develop the UNIA ACL membership enrollment. The Ambassador said the Borehole Project will provide the thrust for million upon million of the African Masses to wake up and move heaven and earth toward Garveyism — Negro Improvement — African Communities League.

Pay close attention to the concluding message from the Kenyan Ambassador. He said more or less a successful BOREHOLE Project will make for a PCEC 2022 Conference — a one-month long PCEC conference in the village that will produce hundreds if not thousands of minds, African minds, that can and will think in the interest of African people — not in the interest of the Chinese nor the New World Order. In an instant the global Black Race will embrace the concept of Black Racial Global Collective Economics.

In essence the Ambassador pointed the global Black Race to African Fundamentalism —

**Let the sky and God be our limit, and Eternity our measurement. There is no height to which we cannot climb by using the active intelligence of our own minds. Mind creates, and as much as we desire in Nature we can have through the creation of our own minds. Being at present the scientifically weaker race, you shall treat others only as they treat you; but in your homes and everywhere possible you must teach the higher development of science to your children; and be sure to develop a race of scientists par excellence, for in science and religion lies our only hope to withstand the evil designs of modern materialism. Never forget your God. Remember, we live, work and pray for the establishing of a great and binding RACIAL HIERARCHY, the rounding of a RACIAL EMPIRE whose only natural, spiritual and political limits shall be God and "Africa, at home and abroad."**

A Critique from UNIA Kenya

The speaker identifies two paradigms where the first is defined by Western colonization via European and American leadership and the second paradigm is infrastructure development via Chinese and African partnerships.

African countries are not equal partners in Chinese development projects and tend to incur unsustainable debt in the worse cases losing sovereignty and assets. The Chinese firms oversee the development projects creating jobs for Chinese (often prisoners) in Africa. There isn’t skills development of Africans so these partnerships result in many Chinese projects within Africa.

https://www.google.com/amp/s/mobile.reuters.com/article/amp/idUSKCN1ST084

True development in Africa must be achieved by Africans as first we must develop ourselves and our communities. The unification of Africans in sharing our skills, resources and efforts to the betterment of the African race and continent is the core business of the UNIA. While the core business of China leadership is the growth and development of China and the Chinese people. As the core business of the western powers is promotion of European and American prosperity.

The presenter in the video you shared, makes the argument there are two paradigms for Africa development, being one led by western powers with a colonial basis and the other led by China with infrastructure development lending combined with political corruption as its basis.
At UNIA Kenya we have developed a small window, door, sunroom production company with joint African-American and Kenyan board, developing production and business development skills.

UNIA-Kenya is also teaming with the UNIA parent body on community development projects led by Kenyan UNIA community leaders starting with access to water.

While our initial efforts are limited in scope, we believe success of these projects will take hold with many more examples of these development partnerships across African communities."

The photos show the distance that villagers must walk daily to get water.
A Historical Reminder

1) **Nannie Helen Burroughs** was a descendant of the kidnapped African, an educator, orator, religious leader, civil activist, and businesswoman in the United States. Her speech "How the Sisters Are Hindered from Helping," at the 1900 National Baptist Convention in Virginia, instantly won her fame and recognition. In 1909, she founded the National Training School for Women and Girls in Washington, DC. Burroughs' objective was at the point of intersection between race and gender. She fought both for equal rights in races as well as furthered opportunities for women beyond the simple duties of domestic housework. She continued to work there until her death in 1961. In 1964, it was renamed the Nannie
Helen Burroughs School in her honor and began operating as a co-ed elementary school. Constructed in 1927–1928, its Trades Hall has a National Historic Landmark designation.

2) Adam Clayton Powell Jr. (1908 – 1972) was a Baptist pastor and a descendant of the kidnapped Africans, a politician who represented Harlem, New York City, in the United States House of Representatives (1945–1971). He was the first descendant of the slaves to be elected from New York to Congress. In 1928 Oscar Stanton De Priest of Illinois was the first black person to be elected to Congress in the 20th century; Powell was the fourth

A Question for Black racial Ministers/Pastors :

“Women’s Day” — Nannie Helen Burroughs proposed in 1906; Rev. Adam Clayton Powell taught, "Every Baptist ought to send Nannie Burroughs a dollar for starting “Women's Day” in Negro Baptist churches. Pastor, how is it that usually churches don't forsake MLK Jr. day, however for women, especially Nannie Burroughs, often we do?
